## Presentation

---

Motivated software engineering student with experience building web applications seeking to use all knowledge acquired during my college career. I am capable to adapt to new work groups, technologies and tasks, currently interested in contributing to a company through an internship. I have worked with different programming languages such as Java, C# and JavaScript, eager to learn more from a great opportunity.

## Studies

---

Liceo Santa Gertrudis

(2013 – 2017)

Bachiller en Educación Media.

Instituto Nacional de Aprendizaje

(2018 - 2019)

Técnico en Inglés para servicio a la Clientela.

Universidad Tecnológica Costarricense
